

Below is the code to give to Daniel, George or Mike at the rental booth below, just look for the green and black umbrellas.

Remember that the charge for each test is \$3.00 that is paid to the state. We do not make any money on this test, as it is administered by us through the State of Florida. You can also review the booklet at the site, BUT the test must be taken without it. Remember to bring your **photo id** with you.

Pay attention to the highlighted portions, since these are important to the operation AND safety while operating a jet ski or waverunner. These may, or may not, be answers on the test, BUT are extremely important to safe operation. The test is 25 questions based on common sense, PWC safety, operational rules, and general water safety/navigational rules, all of which are answered in the attached PDF taken from Florida Fish & Wildlife boating safety booklets.
